125 YEARS
EXPERIENCE

HEAVY DUTY HANDLING WITH SWISS PRECISION

WHATEVER YOU NEED TO LIFT AND SHIFT – WE HAVE THE SOLUTION.

Heppenstall Technology – market leader in designing, engineering and manufacturing of tailor made heavy-duty lifting equipment for the steel and aluminium industry, seaports and terminals. Today's Swiss-based company of American origin has been developing heavy-duty lifting-devices since 1889. Heppenstall is committed to developing innovative lifting solutions, providing equipment that increases your productivity and the effectiveness of your business. **We provide equipment you can trust.**

With the acquisition in 2009 of WOKO Heavy Duty Magnets which is located in Germany the Heppenstall Technology Group strengthened its market position, providing substantial added value for customers.
